

ALRA Race Equality Mission Statement

The systematic, structural racism that has permeated all facets of society and the arts is unacceptable.

At ALRA, we understand it is vital to ensure every individual who is a part of the ALRA community and beyond, feels welcome, included, and valued. We will work in ways within which we are not bound by the construct of race and its falsehoods, championing and celebrating the lived experiences of all individuals. We will embed anti-racist practice in our wider inclusion-centred values and practice, driving us forward with more enriched, evolutionary, and progressive embodiment-focused performing arts training.
